

What is DSCA?

The Dry-cleaning Solvent Cleanup Act (DSCA) Program was established to help fund the cleanup of contamination at dry cleaning sites. Participation in the DSCA cleanup program is voluntary and is available to past and present facility owners, operators and property owners of both active and former dry cleaning and wholesale solvent distribution facilities.

DSCA also established minimum management practices that all dry cleaning and wholesale solvent distribution facilities must follow in order to prevent environmental contamination.

What can DSCA do for me?

The DSCA Program provides:

Funds for Cleanup

DSCA will pay most of the assessment and cleanup costs. You would be responsible for a \$1,000 application fee when you enter the program and a small (1-2%) co-pay (see chart on the back of this brochure).

Cleanup Services

The DSCA Program assigns your site to one of its independent, state-contracted environmental engineering firms. This company determines the extent and degree of contamination and, if necessary, implements cleanup action.

Liability Protection

DSCA protects you from being ordered by other state agencies to clean up the contamination at your own expense.

Risk-based Cleanups

DSCA cleanups will use risk-based standards. These standards are calculated for each site and are dependent on what receptors (e.g. drinking wells and surface water), if any, are being threatened by the contamination. The result is that cleanup goals may be more readily achievable and site cleanups may be completed more quickly.

Property Marketability

Program participation can help remove the stigma of contaminated property which may facilitate property transactions.

How to Get Started: If dry-cleaning solvent contamination is found on your site, complete and submit a DSCA Petitioner Questionnaire (found at www.ncdsca.org). Laboratory results documenting contaminated soil or groundwater would qualify as acceptable evidence of contamination. Be sure that you are operating in compliance with the Minimum Management Practices (MMPs, see www.ncdsca.org) and that all solvent taxes have been paid.

****IMPORTANT****

All operating dry cleaning facilities and wholesale solvent distribution facilities must comply with DSCA's Minimum Management Practices even if the facility does not wish to participate in the DSCA cleanup program.

For more information:

Please be aware that this pamphlet outlines significant program components and is not a comprehensive program description. Please contact the DSCA Program for more details. More information can also be found in NCGS 143-215.104A *et seq.* and 15A NCAC 2S.

FINANCIAL RESPONSIBILITY OF PETITIONERS FOR SITES ELIGIBLE FOR THE NORTH CAROLINA DRY-CLEANING SOLVENT CLEANUP FUND

Application Fee and Copayment*

Type of Facility	Small Cleaner	Medium Cleaner	Large Cleaner	Abandoned	Wholesale Dist.
	Active Drycleaner with less than 5 full-time employees	Active Drycleaner with 5-9 full-time employees	Active Drycleaner with 10 or more full-time employees	Abandoned Drycleaner Sites**	Wholesale Distribution Facilities
<u>Co-payment Percentage</u>	1%	1.5%	2%	1.5%	2%

The Dry-Cleaning Solvent Cleanup Act (DSCA) Fund

North Carolina Department of Environment and Natural Resources
 Division of Waste Management
 Superfund Section

If Total Site Cost is: _____ Petitioner Pays: _____

\$100,000	\$2,000	\$2,500	\$3,000	\$2,500	\$3,000
\$200,000	\$3,000	\$4,000	\$5,000	\$4,000	\$5,000
\$300,000	\$4,000	\$5,500	\$7,000	\$5,500	\$7,000
\$400,000	\$5,000	\$7,000	\$9,000	\$7,000	\$9,000
\$500,000	\$6,000	\$8,500	\$11,000	\$8,500	\$11,000
\$600,000	\$7,000	\$10,000	\$13,000	\$10,000	\$13,000
\$700,000	\$8,000	\$11,500	\$15,000	\$11,500	\$15,000
\$800,000	\$9,000	\$13,000	\$17,000	\$13,000	\$17,000
\$900,000	\$10,000	\$14,500	\$19,000	\$14,500	\$19,000
\$1,000,000	\$11,000	\$16,000	\$21,000	\$16,000	\$21,000

All site costs above \$1,000,000 are covered by the DSCA Fund.

*Above amounts include \$1,000 application fee.

**Abandoned facilities are closed dry cleaning facilities (including previously operating facilities that are currently pick-up only or “dry” stores).
